TO THE GOVERNOR

State Auditor's Office

Helena, Montana, November 1. 1926.

To His Excellency,
John E. Erickson,
Governor of Montana.

Dear Sir :

I have the honor to transmit herewith, in compliance with the provisions of Chapter 11, Section 151, Revised Codes of Montana, 1921, the report of the State Auditor for the fiscal year ended June 30, 1925, and for the fiscal year ended June 30, 1926, arranged in three parts, namely :

Part 1. Text of report containing comments and information relating to the fiscal affairs of the State, consisting of general balance sheet and supporting exhibits, and suggestions for the improvement and management of public revenue.

Part 2. Financial statements, in tabular form, showing the condition of the various funds of the State; tabular statement of appropriations made by the Legislative Assembly; amounts expended and balances, if any; and miscellaneous statements relative to State affairs.

Part 3. Statements of revenue chargeable to each county; amounts paid and amounts unpaid or due therefrom for the years 1924 and 1925.

GENERAL COMMENTS.

In the submission of this report, the form of tabulated statements employed will be similar to those of the last Biennial Report of the State Auditor. The change in the system of reporting accounts in accordance with classification outlined by the Bureau of Census and the Institute for Government Research, is being held in abeyance, awaiting the report of the Committee on Uniform State Accounting of the National Association of State Auditors, Comptrollers and Treasurers.

The Nineteenth Legislative Assembly by Chapters 32, 34 and 37, Session Laws of 1925, authorized the transfer of the Veterans Welfare Interest and Sinking Fund, the transfer of the Board of Health Maintenance Fund and the transfer of the State Gasoline Inspection Fund to the General Fund, as suggested in my last report.

The Nineteenth Legislative Assembly by Chapters 33, 35 and 36, Session Laws of 1925, authorized the transfer of the Capitol Annex Bond Fund to the Capitol Building Interest and Sinking Fund, the transfer of the Biological Station Maintenance Fund to the University Interest and Income Fund and the transfer of the Anti-Hog Cholera Serum Fund to the General Fund.

Of the various exhibits and statements contained in this report, the General Balance Sheet (Exhibit "A") and the statement of General Operations and Surplus (Exhibit "C") are naturally of paramount interest. These Exhibits and Statements are here presented in condensed form for the purpose of comparison and comment.

NOTE—This office cannot certify to the correctness of figures contained in Exhibits "E, G and H" as same were submitted by the various departments and institutions without being verified.

I am charged with the duty of suggesting plans for the improvement and management of the public revenues. In compliance with this duty, I will endeavor to enumerate under the several headings a general review of the principal matters relating to the transactions of the State's affairs during the period of this report, together with recommendations for the future.

I most respectfully urge the closing of the Treasurer's Vault Fund and the transfer of the cash surplus existing therein, amounting to the sum of \$8,763.64 to the Capitol Building Interest and Sinking Fund.

ACCOUNTING SYSTEM.

The system of records and accounts in this office was installed with the view of being able to render financial reports and present comprehensive and definite data for the information of the Chief Executive and the Legislative Assembly.

The System is in uniformity with the State Budget System and also conforms with the accounting system of the various Institutions of the State.

The Committee on Uniform State Accounting of the National Association of State Auditors, Comptrollers and Treasurers appointed at the meeting held in Miami, November, 1925, will in all probability submit a report at the next meeting to be held at Hot Springs, Arkansas, November 16-19, 1926, on Draft Manual Reporting Data of the States. It is expected that a representative of this state will attend the Hot Springs meeting to participate in the deliberations of this important matter of securing uniformity on the part of the state in reporting their financial conditions and operations.

The purpose of a uniform system of accounting and reporting for states is set forth in the paper prepared by Henry P. Seidemann, C. P. A. of the Institute for Government Research, "The Fundamental Principles Involved in Uniform Accounting and Reporting for States," whereby he emphasized the need of a proper system of accounting to control the revenue and expenditure authorizations and to point out the necessity for a uniform system to collect the accounting data needed by the Chief Executive, that needed by the operating executives, that needed by the controlling executives, the comptrollers and auditors, that needed by the legislative body, and finally that which ought to be supplied to the Public. Also to enable preparation of information in accordance with classification outlined by the Bureau of Census for collecting statistics of State.

The accounting system of this office is not at present kept on a strictly accrual basis, as the State Auditor is not delegated by authority to compel the independent boards and commissions of the state to render monthly reports to his office. **I, therefore, recommend** that legislation be enacted requiring all departments, boards and commissions to keep their records in accordance with the State Auditor's office and the Draft Manual of the Institute for Government Research and submit monthly reports to the State Auditor to the end that all financial reports may conform to said manual.

GENERAL FUND RECEIPTS AND EXPENDITURES.

The revenue receipts available for the General Fund, consisting of State Tax Levy, Insurance Fees, Special Taxes, Miscellaneous Receipts and including transfers from other funds for the past three fiscal years, were as follows:

The expenditures from the General Fund, including transfers to other funds for the three year period, were as follows:

For fiscal year ended June 30, 1924	\$ 3,291,340.49
For fiscal year ended June 30, 1925	3,569,241.68

The receipts of the General Fund of the amount of \$4,104,845.65 for the fiscal year ending June 30, 1926, is an increase of \$757,447.94 over the previous fiscal year, and \$790,518.06 more than receipts of the fiscal year ending June 30, 1924. The marked increase in receipts is accountable to new revenue available the past current year, derived from sources as reflected in the summary statement as follows:

	June 30, 1925	June 30, 1926	Increase	Decrease
County Taxes	\$1,632,056.72	\$1,587,934.59		\$ 44,122.13

		\$ 757,447.94	\$757,447.94	

The expenditures of the General Fund, amount of \$3,406,436.18 for the fiscal year ending June 30, 1926, is an increase of \$115,095.69 over the expenditures of \$3,291,340.49 for the fiscal year ending June 30, 1924, which is a fair comparison basis, as the expenditures for the fiscal year ending June 30, 1925, included Legislature Expenditures.

GENERAL FUND APPROPRIATIONS.

The General Fund appropriations granted by the Eighteenth Legislative Assembly and by the Nineteenth Legislative Assembly, and approved by the Governor for the three periods below specified, amounted to \$10,358,221.63 and Interest on General Fund Warrants in the amount of \$589,085.10, as per summary statement as follows:

For the period from July 1, 1923 to June 30, 1924	\$ 3,714,394.27
For the period from July 1, 1924 to June 30, 1925	4,125,517.30
For the period from July 1, 1925 to June 30, 1926	3,107,395.16
	<u>\$10,947,306.73</u>

I will transmit to you in a separate report, a detailed estimate of the expenditures to be defrayed from the treasury for the next two fiscal years, in compliance with Section 151, Revised Codes of Montana, 1921.

COUNTY ACCOUNTS AND REPORTS.

In my report for the biennium ended June 30, 1924, the statement of Taxes Accrued and Delinquent from the various Counties, shows that there was due the State of Montana at that time the sum of \$950,717.54. During the past two years the amount of \$488,938.64 in delinquent taxes has been paid into the State Treasury by the various counties of the State. This amount was approximately half of the delinquency due June 30, 1924.

leaving a balance of the old account of \$461,778.90. The amount of unpaid taxes due from counties for the past two years, \$341,282.52, which amount added to the old balance of \$461,778.90 makes a total of \$803,061.42 in unpaid taxes due the State June 30, 1926, from various counties.

Statements Nos. 32 and 34 of this report show detail of tax levies and payments.

I have had most hearty co-operation from the County Clerks and Recorders of the various counties, who have, in most instances, been prompt in rendering their reports to this office, as required by Statute.

DUTIES OF STATE AUDITOR.

The duties of the State Auditor are numerous and as this office covers such a wide field it is possible for me to supervise only the work of the Audit and Accounting Department and those other important activities of my office as Insurance Commissioner, Investment Commissioner Ex-Officio and State Fire Marshal Ex-Officio. The Statute requires of me certain duties which I cannot delegate to my Deputy. I am a member of the following Boards which I must attend in person:

Industrial Accident Board
Pardon Board
Law Library Board

Bank Depository Board
State Canvassing Board
Voting Machine Board

INSURANCE DEPARTMENT.

The State Auditor is Insurance Commissioner, and as such has direction and control of the Department of Insurance State of Montana. The duties of the Insurance Commissioner provides that he shall have and exercise the power to enforce all the laws of the State relating to Insurance, and it shall be his duty to enforce all the provisions of such laws for the public good.

I submitted to Your Excellency, June 1st, 1926, a separate annual report of the Insurance Department of the State of Montana for the calendar year ending December 31st, 1925..

INVESTMENT DEPARTMENT.

The State Auditor of Montana is Ex-Officio Investment Commissioner, and as such, has general supervision and control of the enforcement and regulation of stock brokers and investment companies under the provisions of the Investment Law of the State, Chapter 264, Revised Codes of Montana, 1921, commonly known as the "Blue Sky Law." The "Blue Sky Law" was placed upon the Statutes of the State in 1913 and has been enforced quite successfully. However, the Attorney General has given several opinions during the past two years which have affected and weakened the operation and regulation of the law. In fact, many new issues have arisen which were not contemplated when the Statute was enacted. Our present laws should be amended so as to meet these new issues.

In 1919, believing that the "Blue Sky Law" of 1913 in some particulars was rather loosely drawn, at my request, former Attorney General Ford, and his Asistsant, Frank Woody, drafted a new Investment Law along the lines of the Ohio law. This new bill was introduced in the House by Ronald Higgins during the Session of the Legislative Assembly in 1919, but said bill died in the Committee.

In the Legislative Assembly, Regular Session of 1921, I had introduced in the Senate, a new "Blue Sky Law," Senate Bill No. 103, known as the Dearborn bill. This bill passed the Senate and House. However, on account of the many amendments made thereto, the bill was vetoed by the Governor.

In the Extraordinary Session, Legislative Assembly, 1921, one of the subjects named in the call for Special Session, by former Governor Jos. M. Dixon, was for the enactment of an Investment Law. The Dearborn bill was again introduced and passed the Senate. However, this bill did not get reported out of the conference committee.

During the past year the remarkable prosperity of our state has been reflected in a steady increase of applications of foreign investment companies to sell their stocks and securities in this state. I believe that needed legislation should be enacted for the protection of the investing public. I therefore recommend that our present law be amended so as to make same in uniformity with the laws of other states.

This department has been in the State Auditor's office since the inception of the law in 1914 and during this time has been almost self supporting on account of the fees received. This revenue goes into the General Fund, hence a reasonable appropriation should be provided for the protection of the general public. The low cost of this department is due to the fact that the State Auditor's office has assumed the duties with but very little additional help.

DEPARTMENT OF STATE FIRE MARSHAL.

The State Fire Marshal is appointed by the State Auditor and Commissioner of Insurance. The department is maintained by a special tax on Fire Insurance Companies doing business in this State, and from license fees provided in Sections 2761 and 6112 of the Revised Codes of Montana, 1921. The report of the activities of the Department of State Fire Marshal, for the calendar year ending December 31, 1925, was submitted by the State Fire Marshal, to the Commissioner of Insurance, in compliance with Section 2759, Revised Codes of Montana, 1921.

FOUR TEACHING UNITS OF THE GREATER UNIVERSITY OF MONTANA.

I desire to call your attention to Statement No. 30, of this report, Transactions of the Appropriations and Receipts of the Four Teaching Units of the Greater University of Montana. As shown by this statement, the General Fund Appropriation expenditures of the Four Teaching Units for the past five years aggregate \$3,260,218.02. For the same period the General Fund Receipts, derived from the one and one-half mill levy, were \$3,219,759.83, or within \$40,458.19 of the General Fund Appropriation expenditures. However, during the past two years a most remarkable showing has been made. The receipts for this period, derived from the one and one-half mill levy, amounted to \$1,335,172.04, whereas the appropriation expenditures amounted to \$1,289,152.91, showing a net surplus of \$46,019.13.

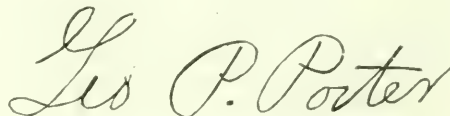

OLD AGE PENSION LAW.

The Eighteenth Legislative Assembly, by Chapter 72, Session Laws of 1923, enacted an Old Age Pension Law and directed that the Old Age Pension Commission of each county shall make a report within ninety (90) days after the close of the Calendar year to the State Auditor. I have prepared a Statement, Statement No. 22 in this report, of the various Old Age Pension Commissions from the several counties of the state.

CONCLUSION.

I wish to take this occasion to express my sincere appreciation for the hearty co-operation given by the heads of the various state departments, institutions and commissions, and more especially, I am indebted to the State Accountant for the valuable assistance rendered me during the past two years,

Respectfully submitted,

A handwritten signature in cursive script that reads "Leo P. Porter". The signature is written in dark ink and is positioned above the printed name of the State Auditor.

State Auditor.

NOTE—As this report goes to press, this office receives the information that the report of the National Association of State Auditors, Comptrollers and Treasurers, at its annual meeting at Hot Springs, Arkansas, had accepted the report of the committee, and had also adopted the Draft Manual of Reporting Financial Data of the States prepared by the Institute for the Government Research. No representative from the State of Montana was present at the Hot Springs meeting and no definite information as to the procedure is available at this time. The approval of the Manual by the National Association is a great step forward in securing uniformity of Accounting in the keeping and rendering of State accounts.
